Many thanks for purchasing our Espresso FX Buzzabout. This is a faithful replica of the Buzzaround circuit. It's a great circuit for strong and loud fuzz sounds with great sustain. Background noise is also relatively low in comparison to other popular circuits. This pedal is becoming quite a favourite of ours.

We have sourced an amazing stock of rare and highly sought after NOS components; some amazing NOS Mullard Mustard and Philips capacitors, NOS Allen Bradley carbon composition resistors, and an array of top grade NOS Mullard and Newmarket germanium transistors. Our Buzzabout takes you ever so close to the mojo of vintage units.

We follow our same tradition of extreme attention to detail when putting these pedals together. Every component used is of the highest quality, with absolutely no compromise. We use shielded audio-grade wire, Silver plated hookup wire, Alpha pots, genuine Vero stripboard, Carling/Alpha footswitches, all put together using Silver-based solder. The circuit is also housed in a genuine large Hammond enclosure, professionally powder coated to our exact specification.

All in all, this is an amazing pedal that produces all the fine subtleties of the original units but without the price tag.

**Specifications:**

- High quality diecast aluminium enclosure, professionally finished in Titanium Grey. These are very durable and absolutely gorgeous enclosures.
- A set of hand selected NOS germanium transistors; please refer to the website for more information on the currently used transistors.
- NOS Mullard "Mustard" C296 polyester capacitors.
- NOS Philips electrolytic capacitors.
- NOS Allen Bradley carbon composition resistors.
- NOS Sylvania Germanium Diode.
- Genuine premium Carling or Alpha footswitch.
- Premium Cliff UK jacks.
- Alpha 16mm potentiometers.
- Premium 22 AWG solid core Silver plated copper wire with Teflon insulation, for superior signal transmission.
- Audio-grade shielded wire.
- Lead free, Silver based solder.
- True bypass.
- Fully hand wired.
- 3 years warranty.
- Dimensions: 120 x 94.5 x 34 mm (W x D x H).

**Warranty:**

All Espresso FX Mojo Edition products carry a 3 year warranty to the original owner with proof of purchase.

The Warranty covers any damages and faults developed by our product, but does not cover those caused by misuse or user error.

All warranty work must be preceded by an email to [support@expressofx.com](mailto:support@expressofx.com) to troubleshoot the problem. Then, if necessary, you will be issued a "Return Authorization" which must accompany any item sent or that item will be rejected.

Espresso FX is not responsible for injuries incurred while using our products nor any damage to other items related or no related to the use our products.
